

**District based initiative for
SDG6: *From a planning and
process perspective in Asutifi
North District in Ghana***

Jeremiah A. Atengdem
Water Expert, IRC Ghana

October 3, 2017

Supporting water sanitation
and hygiene services for life

District Selection

A rigorous district selection process taking accounts of:

- 1) *A mix of rural, small towns, peri-urban settlements population 2000 +.*
 - 2) *Data on existing water facilities , functionality and service and performance of service providers*
 - 3) *Performance in national assessments*
- **Field Assessment of Socio-Economic Pre-conditions of selected districts**

Inception Workshop

Baseline data collection, Context Analysis and Asset Management Planning
